

Texas College of Osteopathic Medicine

Speculum 2005

Dedication

Osteopathic Medical Center of Texas (1945-2004)

We are forever grateful to those who contributed to the legacy of Osteopathic Medicine in Fort Worth through years of healing; service to the community; and the training of medical students, residents and fellows. Thanks to our leaders at UNTHSC and TCOM, the land that occupied OMCT will continue in new form enriching our Osteopathic heritage. While the physical building will be missed, we look forward to the future. Therefore, we dedicate this yearbook to the

Osteopathic Medical Center of Texas

in memory of our hospital and in honor of those who served there.

The Osteopathic Oath

I so hereby affirm my loyalty to the profession I am about to enter. I will be mindful of my great responsibility to preserve the health and the life of my patients, to retain their confidence and respect both as a physician and a friend who will guard their secrets with scrupulous honor and fidelity, to perform faithfully my professional duties, to employ only those recognized methods of treatment consistent with good judgment and with my skills and ability, keeping in mind always nature's law and the body's inherent capacity for recovery.

I will be ever vigilant in aiding the general welfare of the community, sustaining its laws and institutions, not engaging in those practices which will in any way bring shame or discredit upon myself or my profession. I will not give drugs for deadly purposes to any person, though it be asked of me.

I will endeavor to work in accord with my colleagues in a spirit of progressive cooperation and never by word or by act cast imputations upon them or on their rightful practices.

I will look with respect and esteem upon all those who have taught me my art. To my college I will be loyal and strive always for its best interests and for the interests of the students who will come after me. I will be ever alert to further the application of basic biologic truth to the healing arts and to develop the principles of osteopathic medicine as taught by my profession.

***In the presence of this gathering
I bind myself to this oath.***

Take courage! Do not be afraid! (Jesus Christ, restated by Pope John Paul II.) Remember that "all things work for the good of those who love the Lord" (Rom. 8:28.) When Christ is the core of our lives, we can not fail. Jesus desires the love and dedication of our lives to Him. "For God so loved the world, that He gave His only Son, so that whoever believes in Him will have eternal life" (Jn. 3:16.) The Truth is present, seek it out!

To my family - Thank you for your support during this time. The adventure has been a sacrifice for you all that I know I can never repay. But without your help this would not have been possible.

Brothers and sisters, Tho our lives are but vapors, so may Christ receive all glory as we use the gifts which we've been entrusted to bring forth healing. Thank you for being such a wonderful family - for your support, sharpening, prayers, hugs and love. Sharing our lives has made the last 4 years an awesome journey. I love ya'll dearly.

Pre-Physical Skills Exam

My deepest gratitude goes to The Great Physician - Jesus Christ (Ps 9:11, Gal 6:14)

I rebelled against Him who has given me life and breath and all I have by breaking His law - the 10 Commandments, and on judgment day (Heb 9:27) deserve death and eternal punishment in Hell (Rom 6:23; Jn 5:29) however, Christ substitutes His perfection, His death on the cross and subsequent resurrection to cure me from my terminal disease sin "... whoever believes in Him should not perish, but have everlasting life" (Jn 3:16, Acts 3:19.)

Tho I did nothing to deserve it, by His grace, He gave everything, reached down and pulled me out of death into life with Him (Jn 1:12-12.)

For those who are sick, will you point them to the cure? (Mt 9:12, Mk 16:15)

These past four years have been the most painful and rewarding of my life. Left to my own ability I would never have made it.

First and foremost I must thank Jesus Christ for loving me, then predestining, then calling, then justifying and soon glorifying me (Romans 8:30.) In his grace Christ saw fit to enable me to understand the mystery and beauty of the human body that he created.

Thanks also to my beautiful wife, Marla, for her support and perseverance. Thanks to my parents and grandparents for bringing me up right.

Last but not least, thank you to my medical school friends. Never in my life have I had such great friends! I admire and respect you all for your commitment to Christ (reformed or not), your families, and medicine.

Editor's Note

A Final Word from Gina and Leslie ...

As I sat trying to think of something to say as a final word ... I realize there are no words to express my deep felt gratitude for all the class has done for me. Everyone has helped me in some shape or form during my time at TCOM. I hope that I can give you back a little something with the care put into making this book. You will be in my heart forever and my door will always be open to you.

-Gina Fowler

I would like to wish each of you happiness and peace as you create your lives and careers from this day forward. It has been such a pleasure to work with Gina on this yearbook of memories. I wish to thank Gina from all of us for chronicling our lives for the past 4 years in photos, film and print. The best part for me was the opportunity to get to know each of you and the important people in your lives through the smiles in your photos. The photos of your lives and loves added another dimension to the "medical student" aspect of your life that we shared together. The most difficult part was not having enough pages! It is my hope that as you look at this book in the years to come that the memories stay vibrant and you feel all that we have accomplished here at TCOM.

-Leslie Pidgeon
