Dercum's Mental Diseases

Mental Diseases. A Clinical Manual. By FRANCIS X. DERCUM, M. D., Ph. D., Professor of Nervous and Mental Diseases at Jefferson Medical College, Philadelphia. Octavo of 425 pages. Cloth, \$3.00 net.

JUST ISSUED—FOR THE FAMILY PHYSICIAN

Dr. Dercum's work is along entirely new lines. It is *strictly clinical*. It is a book on mental diseases *really useful* to the *family physician*—a book that tells you how to diagnose, how to treat—either at home or in an institution—all classes of mental diseases; tells you in a clear, simple way. There is no other book just like it. You are introduced at once into a *clinical* consideration of the various primary forms of mental disease, first taking up the affections you meet in your daily practice—delirium, confusion, stupor. Melancholia, mania, the insanities of early life, paranoia, the neurasthenic-neuropathic disorders, and the dementias follow in their turn. Then the mental disturbances of the infections, intoxications, metabolic disorders, visceral diseases, and diseases of the nervous system are taken up. An important section is that on the *insanities of pregnancy, parturition, and the puerperium*.

Church and Peterson's Nervous *and* Mental Diseases

Nervous and Mental Diseases. By ARCHIBALD CHURCH, M.D., Professor of Nervous and Mental Diseases and Head of Neurologic Department, Northwestern University Medical School, Chicago; and FREDERICK PETERSON, M.D., Professor of Psychiatry in Columbia University, New York. Octavo, 934 pages, with 341 illustrations. Cloth, \$5.00 net; Half Morocco, \$6.50 net.

THE NEW (7th) EDITION

For this new seventh edition the entire work has been most thoroughly revised. To show with what thoroughness the authors have revised their work, we point out that in the nervous section alone over one hundred and fifty interpolations have been made, and, in addition, well over three hundred minor corrections. The section on Mental Diseases has been wholly rearranged to conform to the latest classification, some obsolete matter struck out, and much new matter added.

American Journal of the Medical Sciences

"This edition has been revised, new illustrations added, and some new matter, and really is two books. . . . The descriptions of disease are clear, directions as to treatment definite, and disputed matters and theories are omitted. Altogether it is a most useful text-book."

Brill's Psychanalysis

Psychanalysis: ITS THEORIES AND PRACTICAL APPLICATION. By A. A. BRILL, M.D., Clinical Assistant of Psychiatry and Neurology at Columbia University Medical School. 12mo of 337 pages. Cloth, \$3.00 net.

This one volume gives you the practical application of all Freud's theories, and from the pen of a man thoroughly competent. Psychanalysis is the only system of psychotherapy that deals with the neuroses as entities instead of treating symptoms as do hypnotism, suggestion, and persuasion. The results of psychanalysis are most effective.

Just Out—The New “Dorland”

New (7th) Edition—5000 New Words

The American Illustrated Medical Dictionary. A new and complete dictionary of the terms used in Medicine, Surgery, Dentistry, Pharmacy, Chemistry, Veterinary Science, Nursing, and kindred branches; with over 100 new and elaborate tables and many handsome illustrations. By W. A. NEWMAN DORLAND, M. D. Large octavo, 1107 pages, bound in full flexible leather, \$4.50 net; with thumb index, \$5.00 net.

Dorland's Dictionary defines hundreds of the newest terms not defined in any other dictionary—bar none. It gives the capitalization and pronunciation of all words. It makes a feature of the derivation or etymology of the words. In “Dorland” every word has a separate paragraph, thus making it easy to find a word quickly. The tables of arteries, muscles, nerves, veins, etc., with accompanying pictures in colors, are of the greatest help in assembling anatomic facts. In “Dorland” every word is given its definition—a definition that *defines* in the fewest possible words.

Howard A. Kelly, M. D., *Johns Hopkins University, Baltimore.*

“Dr. Dorland's dictionary is admirable. It is so well gotten up and of such convenient size. No errors have been found in my use of it.”

Goodnow's First-Year Nursing

Illustrated

First-Year Nursing. BY MINNIE GOODNOW, R. N., formerly Superintendent of the Women's Hospital, Denver. 12mo of 325 pages, illustrated. Cloth, \$1.50 net.

Miss Goodnow's work deals *entirely* with the *practical* side of first-year nursing work. It is the *application* of text-book knowledge. It tells the nurse *how* to do those things she is called upon to do in her first year in the training-school—the *actual ward work*.

Roberts' Bacteriology and Pathology for Nurses

Bacteriology and Pathology for Nurses. By JAY G. ROBERTS, PH. G., M. D., Oskaloosa, Iowa. 12mo of 206 pages, illustrated. Cloth, \$1.25 net.

This new work is practical in the strictest sense. Written specially for nurses, it confines itself to information that the nurse should know. All unessential matter is excluded. The style is concise and to the point, yet clear and plain. The text is illustrated throughout.

Grulee's Infant Feeding

Infant Feeding. By CLIFFORD G. GRULEE, M. D., Assistant Professor of Pediatrics at Rush Medical College. Octavo of 295 pages, illustrated, including 8 in colors. Cloth, \$3.00 net.

COLORED PLATES OF STOOLS

After reviewing the scientific principles bearing on the subject, Dr. Grulee goes into the *actual application* of them. He tells you *how* to feed the infant. He tells you—and *shows* by clear illustrations—the *technic* of giving the child the breast. Then artificial feeding is thoughtfully presented, including a number of simple formulas. The colored illustrations showing the actual shapes and appearances of stools are extremely valuable.

Pediatrics

"This work is the *last word* on infant feeding. It is a work that should be in the hands of every physician who is called upon to give advice where the subject of feeding babies and children is concerned."

Bergey's Hygiene

The Principles of Hygiene: A Practical Manual for Students, Physicians, and Health Officers. By D. H. BERGEY, A. M., M. D., Assistant Professor of Bacteriology, University of Pennsylvania. Octavo of 529 pages, illus. Cloth, \$3.00 net.

FOURTH EDITION

This book is intended to meet the needs of students of medicine in the acquirement of a knowledge of those principles upon which modern hygienic practices are based, and to aid physicians and health officers in familiarizing themselves with the advances made in hygiene and sanitation in recent years.

Buffalo Medical Journal

"It will be found of value to the practitioner of medicine and the practical sanitarian; and students of architecture, who need to consider problems of heating, lighting, ventilation, water supply, and sewage disposal, may consult it with profit."

Kerr's Diagnostics of Diseases of Children

Diagnostics of the Diseases of Children. By LEGRAND KERR, M. D., Professor of Diseases of Children, Brooklyn Post-graduate Medical School, Brooklyn. Octavo of 542 pages, fully illustrated. Cloth, \$5.00 net; Half Morocco, \$6.50 net.

FOR THE PRACTITIONER

In Dr. Kerr's work the *objective symptoms* are particularly emphasized. Differential diagnosis is discussed from the very earliest symptoms. The physician will find the many original illustrations a source of much information and help.

New York State Journal of Medicine

"The illustrations are excellent and numerous. It will meet the needs of the great mass of physicians who treat the diseases of infancy and childhood."

Kerley's Treatment of Diseases of Children

Treatment of the Diseases of Children. By CHARLES GILMORE KERLEY, M. D., Professor of Diseases of Children, New York Polyclinic School and Hospital. Octavo of 629 pages; illustrated. Cloth, \$5.00 net; Half Morocco, \$6.50 net.

SECOND EDITION

This work has been prepared for the physician engaged in general practice. The author *presents all the modern methods of management and treatment in greater detail than any other work on the subject* heretofore published. Every method has been thoroughly tried and its value as a therapeutic measure proved. There is an excellent illustrated chapter on *Gymnastic Therapeutics*.

The British Medical Journal

"Dr. Kerley's book is one of the best on the subject that has come under our notice. All through it shows evidence of ripe experience and sound judgment."

Ruhrah's Diseases of Children

A Manual of Diseases of Children. By JOHN RUHRAH, M. D., Professor of Diseases of Children, College of Physicians and Surgeons, Baltimore. 12mo of 534 pages, fully illustrated. Flexible leather, \$2.50 net.

THE NEW (3d) EDITION

The third edition makes this work more than ever the ideal desk book for the general practitioner. Although there have been added over one hundred pages of new matter and some sixty new illustrations, the book remains of a handy size and is still flexible. Among some of the amplified articles are those on the examination of sick children, food intoxications, bronchopneumonia, examination of the heart, and the nervous system. The section on therapeutics has been very largely rewritten, and that on the infectious diseases entirely rewritten. There has been added a table of doses, instructions for summer, care of the mentally deficient, the blind, and the deaf.

American Journal of the Medical Sciences

"Treatment has been satisfactorily covered, being quite in accord with the best teaching, yet withal broadly general and free from stock prescriptions."

Griffith's Care of the Baby

The Care of the Baby. By J. P. CROZER GRIFFITH, M. D., Clinical Professor of Diseases of Children, University of Pennsylvania. 12mo of 455 pages, illustrated. Cloth, \$1.50 net.

THE NEW (5th) EDITION

New York Medical Journal

"We are confident if this little work could find its way into the hands of every trained nurse and of every mother, infant mortality would be lessened by at least fifty per cent."

Sanders' Nursing

Modern Methods in Nursing. By GEORGIANA J. SANDERS, formerly Superintendent of Nurses at the Massachusetts General Hospital. 12mo of 881 pages, with 227 illustrations. Cloth, \$2.50 net.

COMPLETE

Miss Sanders' book gives only *modern* methods. Then it gives the *details* of nursing *operation cases*, both in the hospital and in the home. The thorough way in which *ward work* is taken up makes her book indispensable for teaching purposes. In giving directions for mustard baths, poultices, etc., the *quantities* are given exactly. This is an important point often overlooked.

Stoney's Nursing

Practical Points in Nursing : for Nurses in Private Practice. By EMILY M. A. STONEY, formerly Superintendent of the Training School for Nurses at the Carney Hospital, South Boston, Mass. 495 pages, fully illustrated. Cloth, \$1.75 net.

THE NEW (4th) EDITION

In this volume the author explains the entire range of *private* nursing as distinguished from *hospital* nursing, and the nurse is instructed how best to meet the various emergencies of medical and surgical cases when distant from medical or surgical aid or when thrown on her own resources. An especially valuable feature will be found in the direction how to *improvise* everything ordinarily needed in the sick-room.

Stoney's Technic for Nurses

Bacteriology and Surgical Technic for Nurses. By EMILY M. A. STONEY, Carney Hospital, South Boston. Revised by FREDERIC R. GRIFFITH, M. D., Surgeon, N. Y. 12mo, 311 pages, illustrated. \$1.50 net.

New (3d) Edition

Hoxie and Laptad's Medicine for Nurses **Just Issued New (2d) Edition**

MEDICINE FOR NURSES AND HOUSEMOTHERS. By GEORGE HOWARD HOXIE, M. D., Physician to the German Hospital, Kansas City; and PEARL L. LAPTAD, formerly Principal of Training-School, University of Kansas. 12mo of 351 pages, illustrated. Cloth, \$1.50 net.

This work is truly a practice of medicine for the nurse, enabling her to recognize any signs and changes that may occur between visits of the physician, and, if necessary, to combat them until the physician's arrival. This information the author presents in a way most acceptable, particularly emphasizing the nurse's part. There are also special chapters on the diseases of the eye, ear, nose, and throat, venereal diseases, nervous and mental diseases, surgical nursing, emergency measures.

"This book has our unqualified approval."—*Trained Nurse and Hospital Review*.

McCombs' Diseases of Children for Nurses **Second Edition**

DISEASES OF CHILDREN FOR NURSES. By ROBERT S. MCCOMBS, M. D., Instructor of Nurses at the Children's Hospital of Philadelphia. 12mo of 460 pages, illustrated. Cloth, \$2.00 net.

Dr. McCombs has given a short but clear description of each disease found in infancy and childhood, so that the nurse will be enabled to know what symptoms to expect and what complications to guard against.

"We have needed a good work on children's diseases adapted for nurses' use, and this volume admirably fills the want."—*National Hospital Record*.

Wilson's Obstetric Nursing **Second Edition**

Aikens' Primary Studies for Nurses

New (2d) Edition

PRIMARY STUDIES FOR NURSES: A Text-Book for First-year Pupil Nurses. By CHARLOTTE A. AIKENS, formerly Director of Sibley Memorial Hospital, Washington, D. C. 12mo of 437 pages, illustrated. Cloth, \$1.75 net.

This work brings together in concise form well-rounded courses of lessons in all subjects which, with practical nursing technic, constitute the primary studies in a nursing course.

Trained Nurse and Hospital Review

"It is safe to say that any pupil who has mastered even the major portion of this work would be one of the best prepared first-year pupils that ever stood for examination."

Aikens' Clinical Studies for Nurses

New (2d) Edition

CLINICAL STUDIES FOR NURSES. By CHARLOTTE A. AIKENS, formerly Director of Sibley Memorial Hospital, Washington, D. C. 12mo of 569 pages, illustrated. Cloth, \$2.00 net.

This new work is written along the same lines as Miss Aikens' earlier work on "Primary Studies," to which it is a companion volume. It takes up all subjects taught during the second and third years and takes them up in a concise, forceful way.

Dietetic and Hygienic Gazette

"There is a large amount of practical information in this book which the experienced nurse, as well as the undergraduate, will consult with profit. The illustrations are numerous and well selected."

Aikens' Training-School Methods and Head Nurse

HOSPITAL TRAINING-SCHOOL METHODS AND THE HEAD NURSE. By CHARLOTTE A. AIKENS, formerly Director of Sibley Memorial Hospital, Washington, D. C. 12mo of 267 pages. Cloth, \$1.50 net.

Trained Nurse and Hospital Review

"There is not a chapter in the book that does not contain valuable suggestions."

Aikens' Hospital Management

HOSPITAL MANAGEMENT. By CHARLOTTE A. AIKENS, formerly Director of Sibley Memorial Hospital, Washington, D. C. 12mo of 488 pages, illustrated. Cloth, \$3.00 net.

The Medical Record

"Tells in concise form exactly what a hospital should do and how it should be run, from the scrubwoman up to its financing. A valuable addition to our literature on this subject."

Register's Fever Nursing

A TEXT-BOOK ON PRACTICAL FEVER NURSING. By EDWARD C. REGISTER, M. D., Professor of the Practice of Medicine in the North Carolina Medical College. 12mo of 352 pages. Cloth, \$2.50 net.

"Nurses will find this book of great value in this practical branch of their work."
—*Trained Nurse and Hospital Review*.

Hecker, Trumpp, and Apt on Children

ATLAS AND EPITOME OF DISEASES OF CHILDREN. By Dr. R. HECKER and Dr. J. TRUMPP, of Munich. Edited, with additions, by ISAAC A. APT, M. D., Professor of Pediatrics, Northwestern Medical School, Chicago. With 48 colored plates, 144 text-cuts, and 453 pages of text. Cloth, \$5.00 net.

Aikens' Home Nurse's Hand-Book

HOME NURSE'S HAND-BOOK. By CHARLOTTE A. AIKENS. 12mo of 276 pages, illustrated. Cloth, \$1.50 net.

The point about this work is this: It tells you and *shows* you just how to do those little but important things often omitted from other nursing books. "Home Treatments" and "Points to be Remembered"—terse, crisp reminders—stand out as particularly practical. Just the book for those who have the *home-care* of the sick.

Lewis' Anatomy and Physiology

Second Edition

ANATOMY AND PHYSIOLOGY FOR NURSES. By LEROY LEWIS, M.D., formerly Surgeon to and Lecturer on Anatomy and Physiology for Nurses at the Lewis Hospital, Bay City, Michigan. 12mo of 375 pages, with 150 illustrations. Cloth, \$1.75 net.

A demand for such a work as this, *treating the subjects from the nurse's point of view* has long existed. Dr. Lewis has based the plan and scope of this work on the methods employed by him in teaching these branches, making the text unusually simple and clear.

"It is not in any sense rudimentary, but comprehensive in its treatment of the subjects in hand. The application of the knowledge of anatomy in the care of the patient is emphasized."—*The Nurses Journal of the Pacific Coast*.

Friedenwald and Ruhräh's Dietetics

Second Edition

DIETETICS FOR NURSES. By JULIUS FRIEDENWALD, M. D., Professor of Diseases of the Stomach, and JOHN RUHRÄH, M. D., Professor of Diseases of Children, College of Physicians and Surgeons, Baltimore. 12mo volume of 395 pages. Cloth, \$1.50 net.

This work has been prepared to meet the needs of the nurse, both in the training school and after graduation. It aims to give the essentials of dietetics, considering briefly the physiology of digestion and the various classes of foods and the part they play in nutrition.

"It is exactly the book for which nurses and others have long and vainly sought. A simple manual of dietetics, which does not turn into a cook-book at the end of the first or second chapter."—*American Journal of Nursing*.

Macfarlane's Gynecology for Nurses New (2d) Edition

A REFERENCE HAND-BOOK OF GYNECOLOGY FOR NURSES. By CATHARINE MACFARLANE, M. D., Gynecologist to the Woman's Hospital of Philadelphia. 16mo of 156 pages, with 70 illustrations. Flexible leather, \$1.25 net.

"This is a nut-shell book, and the flexible leather covers are full of meat."—*Dietetic and Hygienic Gazette*.

"It is far and away the best that has come to my notice, and I shall take great pleasure in recommending it to my nurses and students as well."—J. CLIFTON EDGAR, M. D., *Cornell Medical School, N. Y.*

Davis' Obstetric Nursing Just Issued New (4th) Edition

OBSTETRIC AND GYNECOLOGIC NURSING. By EDWARD P. DAVIS, A. M., M. D., Professor of Obstetrics, Jefferson Medical College and Philadelphia Polyclinic. 12mo of 480 pages, illustrated. Buckram, \$1.75 net.

"Not only nurses, but even newly qualified medical men, would learn a great deal by a perusal of this book. It is written in a clear and pleasant style, and is a work we can recommend."—*The Lancet, London*.

Beck's Hand-Book for Nurses New (3d) Edition

A REFERENCE HAND-BOOK FOR NURSES. By AMANDA K. BECK, of Chicago, Ill. 32mo of 230 pages. Flexible leather, \$1.25 net.

This little book contains information upon every question that comes to a nurse in her daily work, and embraces all the information that she requires to carry out any directions given by the physician.

"Must be regarded as an extremely useful book, not only for nurses, but for physicians."—*Boston Medical and Surgical Journal*.

Stoney's

Materia Medica for Nurses

Practical Materia Medica for Nurses, with an Appendix containing Poisons and their Antidotes, with Poison-Emergencies ; Mineral Waters ; Weights and Measures, etc. By EMILY M. A. STONEY, formerly at the Carney Hospital, South Boston, Mass. 12mo, 300 pages. \$1.50 net.

THE NEW (3d) EDITION

In this work the consideration of the drugs includes their names, their sources and composition, their various preparations, physiologic actions, directions for handling and administering, and the symptoms and treatment of poisoning.

Journal of the American Medical Association

"So far as we can see, it contains everything that a nurse ought to know in regard to drugs. As a reference-book for nurses it will without question be very useful."

Bolduan and Grund's Bacteriology for Nurses **Just Ready**

APPLIED BACTERIOLOGY FOR NURSES. By CHARLES F. BOLDUAN, M. D., Assistant to the General Medical Officer, and MARIE GRUND, M. D., Bacteriologist, Research Laboratory, Department of Health, New York City. 12mo of 155 pages, illustrated. Cloth, \$1.25 net.

We were fortunate in getting these practical physicians to write this work. It gives particular emphasis to the immediate *application* of bacteriology to nursing, only the really practical being included. A study of all the modes of infection transmission is presented. At the end of each chapter are suggestions for practical demonstration.

Bohm and Painter's Massage **Just Ready**

MASSAGE. By MAX BOHM, M. D., of Berlin, Germany. Edited, with an Introduction, by CHARLES F. PAINTER, M. D., Professor of Orthopedic Surgery at Tufts College Medical School, Boston. Octavo of 91 pages, with 70 *practical* illustrations. Cloth, \$1.75 net.

Paul's Fever Nursing**New (2d) Edition**

NURSING IN THE ACUTE INFECTIOUS FEVERS. By GEORGE P. PAUL, M. D., formerly Assistant Visiting Physician to the Samaritan Hospital, Troy, N. Y. 12mo of 246 pages. Cloth, \$1.00 net.

Dr. Paul has taken great pains in the presentation of the care and management of each fever. The book treats of fevers in general, then each fever is discussed individually, and the latter part of the book deals with practical procedures and valuable information.

"The book is an excellent one and will be of value to those for whom it is intended. It is well arranged, the text is clear and full, and the illustrations are good."—*The London Lancet*.

Paul's Materia Medica for Nurses**New (2d) Edition**

MATERIA MEDICA FOR NURSES. By GEORGE P. PAUL, M. D., formerly Assistant Visiting Physician to the Samaritan Hospital, Troy. 12mo of 240 pages. Cloth, \$1.50 net.

Dr. Paul arranges the physiologic actions of the drugs according to the action of the drug and not the organ acted upon. An important section is that on pretoxic signs, giving the warnings of the full action or the beginning toxic effects of the drug, which, if heeded, may prevent many cases of drug poisoning. The nurse should know these signs.

"This volume will be of real help to nurses; the material is well selected and well arranged, and the book is as readable as it is useful."—*The Medical Record*.

Pyle's Personal Hygiene**The New (5th) Edition**

A MANUAL OF PERSONAL HYGIENE: Proper Living upon a Physiologic Basis. By Eminent Specialists. Edited by WALTER L. PYLE, A. M., M. D., Assistant Surgeon to Wills Eye Hospital, Philadelphia. Octavo volume of 515 pages, fully illustrated. Cloth, \$1.50 net.

To this new edition there have been added, and fully illustrated, chapters on Domestic Hygiene and Home Gymnastics, besides an appendix containing methods of Hydrotherapy, Mechanotherapy, and First Aid Measures. There is also a Glossary of the medical terms used.

"The work has been excellently done, there is no undue repetition, and the writers have succeeded unusually well in presenting facts of practical significance based on sound knowledge."—*Boston Medical and Surgical Journal*.

Galbraith's Four Epochs of Woman's Life **Second Edition**

THE FOUR EPOCHS OF WOMAN'S LIFE. By ANNA M. GALBRAITH, M. D. With an Introductory Note by JOHN H. MUSSER, M. D., University of Pennsylvania. 12mo of 247 pages. Cloth, \$1.50 net.

"We do not as a rule care for medical books written for the instruction of the public; but we must admit that the advice in Dr. Galbraith's work is in the main wise and wholesome."—*Birmingham Medical Review, England*.

Spratling on Epilepsy

EPILEPSY AND ITS TREATMENT. By WILLIAM P. SPRATLING, M. D., formerly Professor of Physiology and Nervous Diseases, College of Physicians and Surgeons, Baltimore. Octavo of 522 pages, fully illustrated. Cloth, \$4.00 net.

Peterson and Haines' Legal Medicine & Toxicology

A Text-Book of Legal Medicine and Toxicology. Edited by FREDERICK PETERSON, M. D., Professor of Psychiatry in the Columbia University (College of Physicians and Surgeons), New York; and WALTER S. HAINES, M. D., Professor of Chemistry, Pharmacy, and Toxicology, Rush Medical College, in affiliation with the University of Chicago. Two imperial octavo volumes of about 750 pages each, fully illustrated. Per volume: Cloth, \$5.00 net; Sheep or Half Morocco, \$6.50 net. *Sold by Subscription.*

TWO VOLUMES

The object of the present work is to give to the medical and legal professions a comprehensive survey of forensic medicine and toxicology in moderate compass. An interesting and important chapter is that on "The Destruction and Attempted Destruction of the Human Body by Fire and Chemicals." A chapter not usually found in works on legal medicine is that on "The Medicolegal Relations of the X-Rays."

Columbia Law Review

"For practitioners in criminal law and for those in medicine who are called upon to give court testimony in all its various forms . . . it is extremely valuable."

Fiske's Human Body

Structure and Functions of the Body. By ANNETTE FISKE, A.M., Graduate of the Waltham Training School for Nurses. 12mo of 221 pages, illustrated. Cloth, \$1.25 net.

PRESENTED IN A NEW WAY

The way in which this book presents anatomy and physiology is a departure from the usual method—a departure, however, of a very practical kind. Miss Fiske has woven the physiology in with the anatomy, thus making her work a most readable one. It is an extremely practical book—one that can be readily understood.
