

## INDEX.

- ABDOMEN**, method of opening, 62  
**Abdominal cyst**, 582  
     hemorrhage, after-treatment, 684  
     hysterectomy, 410  
     incision, closure of, 62, 63  
     operations, closure of the incision in, 63  
         dressing the wound in, 64  
         opening the abdomen in, 62  
         preparatory treatment in, 60  
     pregnancy, 519  
     section, after-treatment, 670  
     tumor, adhesions of, 591  
         exploratory puncture of, 592  
         pedicle of, 591  
         treatment, 593  
     wall, fatty, 588  
**Abnormalities of the cervix uteri**, 130  
     of the clitoris, 123  
     of the Fallopian tubes, 130  
     of either or both genital zones, 120  
     of the hymen, 123  
     of the ovaries, 131  
     of the uterus, 125  
     of the vagina, 124  
     of the vulva, 123  
**Abortion**, solicitation of patients for, 90  
     tubal, 525  
         diagnosis, 536  
**Abscess-cavities**, multiple, in pyosalpinx, 491  
     of the labia, 158  
     of the ovary, 452, 462  
         diagnosis, 463  
         prognosis, 474  
         symptoms, 453, 462  
     pelvic, 447  
         course, 447  
         drainage of, 488  
         evacuation of, 489  
         extraperitoneal treatment, 492  
         neglected, 516  
         opening into bowel, 489  
         symptoms, 447  
         treatment, 490  
     stitch-hole, 683  
         treatment, 684  
     suburethral, cause, 626  
         diagnosis, 626  
         symptoms, 626  
         treatment, 626  
     of vulvo-vaginal glands, 157  
**Absence of the clitoris**, 123  
     of the Fallopian tube, 130  
     of the genital organs, 122  
     of the hymen, 124  
**Absence of the internal genital organs**, 125  
     of the labia majora, 123  
     of the nymphæ, 123  
     of the ovary, 131  
     of the uterus, 125  
     of the vagina, 124  
**Absorbent cotton**, sterilization of, 54  
**Adenoma**, benign, of the uterus, 196  
     malignant, of uterine mucous membrane, 378  
     ovarian, 565  
     papillary, of the uterus, 197  
**Adhesions**, bread-and-butter, 445  
     labial, 153  
     from neglected pelvic abscess, 517  
     of the ovary, 444  
         and Fallopian tube, 443  
     in pelvic peritonitis, 465  
     separation of, 445  
     spider-web, 444  
**After-treatment of bladder in operations**, 675  
     in gynecological operations, 670  
     of operations, bathing in, 678  
         drainage-tube in, 680  
         dressings in, 683  
         drink in, 672  
         flatulence in, 678  
         food in, 672  
         purgatives in, 673  
         rest in, 670  
         vomiting in, 671  
**Alexander's operation**, 299, 302  
     anatomy, 293, 302, 303  
     difficulties of, 300, 306  
     indications for, 301  
**Amenorrhea**, 86  
     causes, 86  
     diagnosis, 88  
     prognosis, 89  
     treatment, 90  
**Amputation of cervix**, 373  
     after-treatment, 338, 376  
     by galvano-cautery, 375  
     high, 373  
     procedure in, 374  
     simple, 333  
     vaginal, in inversion, 352  
     wedge-shaped, 335  
     of the uterus for prolapse, by Baldy's method, 327  
**Anesthesia for examination**, 29  
**Angioma of the vulva**, 172  
**Anomalies of the female generative organs**, 118

- Antelexion, 268  
   applications to endometrium in, 275  
   bladder-attachment in, 271  
   complications, 270  
   dilatation in, 276  
   drugs in, 277  
   effect of lacing on, 271  
   forms of, 268  
   indications for operation in, 276  
   intra-abdominal pressure in, 271  
   with menopause, 277  
     treatment, 278  
   pathology, 269  
   physiologic changes in, 271  
   with retroversion, 270  
     treatment of enlarged cervix in, 273  
   stem-pessaries in, 275, 276  
   symptoms, 269  
   treatment, 272, 273  
     after operation for, 276  
     stenosis in, 275  
     for sterility in, 273  
   in unmarried and married, 270  
 Anterior colporrhaphy, 338  
   Sims's operation for, 338  
   Stoltz's operation for, 339  
 Antisepsis in gynecologic operations, 44, 45  
 Apoplectic ovum, 528  
 Application to the endometrium in ante-  
   flexion, 275  
 Applications, uterine, 203  
 Applicators, uterine, 34  
 Apron of Hottentot, 152  
 Areolar cyst of the ovary, 563  
 Artificial impregnation in sterility, 116  
 Ascites from ovarian cyst, 578  
   diagnosis of, from ovarian cyst, 586  
 Asepsis, 45  
 Aspirator, 42  
 Assistants, preparation of, 48  
 Astringents, 96  
 Atresia of the hymen, 123  
   of the urethra, 619  
     treatment, 619  
   of the vagina, 176  
     course, 177  
     diagnosis, 178  
     prognosis, 180  
     symptoms, 178  
     treatment, 180  
     varieties, 177  
 Atrophic endometritis, 200  
 BALDY'S operation for prolapse, 326  
   indications for, 329  
   ligatures in, 327, 328  
   modification of, 329  
   results of, 328  
 Ball pessary, 332  
 Barrenness, 111  
   treatment, 115  
 Bartholin's glands, inflammation of, 157  
 Bassini's operation, 305  
 Bathing in after-treatment of operation,  
   678  
 Benign uterine neoplasms, 387  
 Bicornate uterus, 127  
   diagnosis of, from abdominal cyst,  
   584  
 Bimanual examination, 25  
   palpation in pelvic inflammation,  
   thorough, 460  
 Bipartite bladder, 622  
 Bladder, absence of, complete, 628  
   adenoma of, 653  
   in antelexion, 271  
   bipartite, 622  
   carcinoma of, 653, 369  
   care of, after operation, 675  
     in operative treatment of reposi-  
     tion of uterus, 298  
   congenital malformation of, 628  
   cystoscope in the, 611  
   dermoid cyst of, 653  
   displacement of, 632  
     diagnosis, 632  
     downward, 632  
     symptoms, 632  
     treatment, 632  
     upward, 632  
   distended, 589  
   double, 629  
   examination of, artificial landmarks in,  
   614  
     natural landmarks in, 614  
     with cystoscope, 613  
   exstrophy of, 629  
     forms of, 629  
     operations for, 631  
     symptoms, 630  
     treatment, 630  
   extroversion of, 629  
   foreign body in, 633  
     diagnosis, 634  
     symptoms, 634  
     treatment, 634  
   implantation, sutures in, 660  
     ureter in, 660  
   incision in, after-treatment of, 698  
   injuries to, in ovariectomy, 604  
   neoplasms of, after-treatment on re-  
   moval of, 657  
     diagnosis, 655  
     from the epithelium of, 653  
     etiology, 654  
     from the muscularis, 653  
     operations for removal of, 655  
     symptoms, 654  
     treatment, 655  
       palliative, 657  
   papilloma of, 652  
   previous preparation of patient in dis-  
   ease of, 611  
   prolapse of, 632  
     diagnosis, 633  
     symptoms, 633  
     through a patulous urethra, 632  
     treatment, 633  
   sarcoma of, 653  
   separation of, from uterus in hysterec-  
   tomy, 412

*Carcuncle = Strawberry  
granule.*

- Bladder, sutures in, after operation on neo-  
plasm of, 657  
tuberculosis of, 649  
  diagnosis, 650  
  pathological anatomy, 649  
  symptoms, 650  
  treatment, 651  
tumor of, 652  
Bloodletting in pelvic inflammation, 479  
Bowels, care of, after celiotomy, 677, 679  
  in pelvic inflammation, management  
  of, 476  
Braun's colpeurynter, 321, 322, 350  
  intra-uterine syringe, 213  
Bread-and-butter adhesions, 445  
Broad-ligament cyst, 544, 559 *Broad  
Ligament*  
  micro-cyst of, 560  
  papillomatous, disease of, 384  
  structure in, diagram of, 558 *421.*  
Byford's uterine elevator, 33
- CALCIFICATION of fibroid, 392  
  of ovarian cyst, 566  
Calcified corpus luteum, 566  
Calculus of the ureter, 664  
  diagnosis, 665  
  symptoms, 665  
  treatment, 666  
  vesical, 634  
    diagnosis, 637  
    etiology, 635  
    prognosis, 638  
    symptoms, 636  
    treatment, 638  
    varieties, 635  
Carcinoma of bladder, 356  
  of cervix, 366  
    after-treatment, 377  
    causes, 367  
    course, 367, 368, 370  
    diagnosis, 370  
    discharges in, 377  
    forms, 367  
    symptoms, 368  
    treatment, 372  
      palliative, 373  
      radical, 373  
    ulceration in, 371  
  of the ovary, 382  
    symptoms, 384  
    treatment, 385  
  periurethral, 356  
  of the ureter, 668  
  of the urethra, 356  
    treatment, 356  
  of the body of the uterus, 378  
    diagnosis, 380  
    symptoms, 379  
    treatment, 381  
  of the uterus, probability of return after  
  operation, 382  
  of the vagina, 358  
    diagnosis, 358  
    etiology, 358  
    symptoms, 358  
    treatment, operative, 359
