**SAUNDERS' SUCCESSFUL PUBLISHING**

**A** factor of no little moment in establishing the remarkable success of Saunders' publications is the wide publicity given them. Besides an immense amount of circular matter constantly being distributed, the Firm's announcements appear in practically all the leading weekly medical journals of America and England; and recently there has been added to the list the **Indian Lancet**, the leading medical weekly in India. This unprecedented medical publicity really means that the announcements of W. B. Saunders & Company are weekly placed in the hands of 120,000 English-speaking physicians.

# Peterson and Haines'

## Legal Medicine & Toxicology

**A Text-Book of Legal Medicine and Toxicology.** Edited by FREDERICK PETERSON, M.D., Clinical Lecturer on Psychiatry and Instructor in Neurology, College of Physicians and Surgeons, New York; and WALTER S. HAINES, M.D., Professor of Chemistry, Pharmacy, and Toxicology, Rush Medical College, in affiliation with the University of Chicago. Two imperial octavo volumes of about 750 pages each, fully illustrated. Per volume: Cloth, \$5.00 net; Sheep or Half Morocco, \$6.00 net. *Sold by Subscription.*

### AN ENTIRELY NEW WORK—JUST READY

The object of the present work is to give to the medical and legal professions a comprehensive survey of forensic medicine and toxicology in moderate compass. This, it is believed, has not been done in any other recent work in English. Under "Expert Evidence" not only is advice given to medical experts, but suggestions are also made to attorneys as to the best methods of obtaining the desired information from the witness. An interesting and important chapter is that on "The Destruction and Attempted Destruction of the Human Body by Fire and Chemicals." A chapter not usually found in works on legal medicine is that on "The Medicolegal Relations of the X-Rays." This section will be found of unusual importance. The responsibility of pharmacists in the compounding of prescriptions, in the selling of poisons, in substituting drugs other than those prescribed, etc., furnishes a chapter of the greatest interest to every one concerned with questions of medical jurisprudence. Also included in the work is the enumeration of the laws of the various states relating to the commitment and retention of the insane.

# Church and Peterson's Nervous *and* Mental Diseases

---

**Nervous and Mental Diseases.** By ARCHIBALD CHURCH, M. D., Professor of Nervous and Mental Diseases and Head of Neurologic Department, Northwestern University Medical School, Chicago; and FREDERICK PETERSON, M. D., President New York State Commission on Lunacy; Chief of Clinic, Department for Nervous Diseases, College of Physician and Surgeons, New York. Handsome octavo, 875 pages; 322 illustrations. Cloth, \$5.00 net; Sheep or Half Morocco, \$6.00 net.

## FOURTH EDITION, THOROUGHLY REVISED—JUST ISSUED

This work has met with a most favorable reception from the profession at large, four editions having been called for in as many years. It fills a distinct want in medical literature, and is unique in that it furnishes in one volume practical treatises on the two great subjects of Neurology and Psychiatry. In this edition the book has been thoroughly revised in every part, both by additions to the subject matter and by rearrangement wherever necessary, to make it more acceptable to the practitioner and the student. Several sections have been entirely rewritten, and there have been added a number of new illustrations, an increased amount of tabular matter, and a series of diagrams that have proved of assistance in the solution of diagnostic problems.

---

## OPINIONS OF THE MEDICAL PRESS

---

### American Journal of the Medical Sciences

"This edition has been revised, new illustrations added, and some new matter, and really is two books. . . . The descriptions of disease are clear, directions as to treatment definite, and disputed matters and theories are omitted. Altogether it is a most useful text-book."

### Journal of Nervous and Mental Diseases

"The best text-book exposition of this subject of our day for the busy practitioner. . . . The chapter on idiocy and imbecility is undoubtedly the best that has been given us in any work of recent date upon mental diseases. The photographic illustrations of this part of Dr. Peterson's work leave nothing to be desired."

### New York Medical Journal

"To be clear, brief, and thorough, and at the same time authoritative, are merits that ensure popularity. The medical student and practitioner will find in this volume a ready and reliable resource."

# Barton and Wells' Medical Thesaurus

A NEW WORK—JUST ISSUED

---

**A Thesaurus of Medical Words and Phrases.** By WILFRED M. BARTON, A. M., Assistant to Professor of Materia Medica and Therapeutics, and Lecturer on Pharmacy, Georgetown University, Washington, D. C.; and WALTER A. WELLS, M. D., Demonstrator of Laryngology and Rhinology, Georgetown University, Washington, D. C. Handsome octavo of about 650 pages. Cloth, \$0.00 net; Sheep or Half Morocco, \$0.00 net.

## THE ONLY MEDICAL THESAURUS EVER PUBLISHED

This work is the only Medical Thesaurus ever published. It aims to perform for medical literature the same services which Roget's work has done for literature in general; that is, instead of, as an ordinary dictionary does, supplying the meaning to given words, it reverses the process, and when the meaning or idea is in the mind, it endeavors to supply the fitting term or phrase to express that idea. To obviate constant reference to a lexicon to discover the meaning of terms, brief definitions are given before each word. As a dictionary is of service to those who need assistance in interpreting the expressed thought of others, the Thesaurus is intended to assist those who have to write or to speak to give proper expression to their own thoughts. In order to enhance the practical application of the book cross references from one caption to another have been introduced, and terms inserted under more than one caption when the nature of the term permitted. In the matter of synonyms of technical words the authors have performed for medical science a service never before attempted. Writers and speakers desiring to avoid unpleasant repetition of words will find this feature of the work of invaluable service. Indeed, this Thesaurus of medical terms and phrases will be found of inestimable value to all persons who are called upon to state or explain any subject in the technical language of medicine. To this class belong not only teachers in medical colleges and authors of medical books, but also every member of the profession who at some time may be required to deliver an address, state his experience before a medical society, contribute to the medical press, or give testimony before a court as an expert witness.

---

## **Brower and Bannister on Insanity**

---

**A Practical Manual of Insanity.** For the Student and General Practitioner. By DANIEL R. BROWER, A. M., M. D., LL. D., Professor of Nervous and Mental Diseases in Rush Medical College, in affiliation with the University of Chicago; and HENRY M. BANNISTER, A. M., M. D., formerly Senior Assistant Physician, Illinois Eastern Hospital for the Insane. Handsome octavo of 426 pages, with a number of full-page inserts. Cloth, \$3.00 net.

### **FOR STUDENT AND PRACTITIONER**

This work, intended for the student and general practitioner, is an intelligible, up-to-date exposition of the leading facts of psychiatry, and will be found of invaluable service, especially to the busy practitioner unable to yield the time for a more exhaustive study. The work has been rendered more practical by omitting elaborate case records and pathologic details, as well as discussions of speculative and controversial questions.

#### **American Medicine**

"Commends itself for lucid expression in clear-cut English, so essential to the student in any department of medicine. . . . Treatment is one of the best features of the book, and for this aspect is especially commended to general practitioners."

---

## **Bergey's Hygiene**

---

**The Principles of Hygiene:** A Practical Manual for Students, Physicians, and Health Officers. By D. A. BERGEY, A. M., M. D., First Assistant, Laboratory of Hygiene, University of Pennsylvania. Octavo volume of 495 pages, illustrated. Cloth, \$3.00 net.

### **FOR STUDENTS, PHYSICIANS, AND HEALTH OFFICERS**

This book is intended to meet the needs of students of medicine in the acquirement of a knowledge of those principles upon which modern hygienic practices are based, and to aid physicians and health officers in familiarizing themselves with the advances made in hygiene and sanitation in recent years. The book is based on the most recent discoveries, and represents the practical advances made in the science of hygiene up to date.

#### **Buffalo Medical Journal**

"It will be found of value to the practitioner of medicine and the practical sanitarian; and students of architecture, who need to consider problems of heating, lighting, ventilation, water supply, and sewage disposal, may consult it with profit."

THE BEST

# American Illustrated Dictionary

THE NEW  
STANDARD

Third Revised Edition—Just Issued

**The American Illustrated Medical Dictionary.** A new and complete dictionary of the terms used in Medicine, Surgery, Dentistry, Pharmacy, Chemistry, and kindred branches; with over 100 new and elaborate tables and many handsome illustrations. By W. A. NEWMAN DORLAND, M. D., Editor of "The American Pocket Medical Dictionary." Large octavo, nearly 800 pages, bound in full flexible leather. Price, \$4.50 net; with thumb index, \$5.00 net.

**Gives a Maximum Amount of Matter in a Minimum Space, and at the Lowest Possible Cost**

**THIRD EDITION IN THREE YEARS—12,500 COPIES**

The immediate success of this work is due to the special features that distinguish it from other books of its kind. It gives a maximum of matter in a minimum space and at the lowest possible cost. Though it is practically unabridged, yet by the use of thin bible paper and flexible morocco binding it is only 1  $\frac{5}{8}$  inches thick. The result is a truly luxurious specimen of book-making. In this new edition the book has been thoroughly revised, and upward of one hundred important new terms that have appeared in recent medical literature have been added, thus bringing the book absolutely up to date. The book contains hundreds of terms not to be found in any other dictionary, over 100 original tables, and many handsome illustrations, including 24 colored plates.

## PERSONAL OPINIONS

**Howard A. Kelly, M. D.,**

*Professor of Gynecology, Johns Hopkins University, Baltimore.*

"Dr. Dorland's dictionary is admirable. It is so well gotten up and of such convenient size. No errors have been found in my use of it."

**Roswell Park, M. D.,**

*Professor of Principles and Practice of Surgery and of Clinical Surgery, University of Buffalo.*

"I must acknowledge my astonishment at seeing how much he has condensed within relatively small space. I find nothing to criticize, very much to commend, and was interested in finding some of the new words which are not in other recent dictionaries."

---

# Galbraith's Four Epochs of Woman's Life

Second Revised Edition—Just Issued

---

**The Four Epochs of Woman's Life:** A Study in Hygiene. By ANNA M. GALBRAITH, M. D., Fellow of the New York Academy of Medicine, etc. With an Introductory Note by JOHN H. MUSSER, M. D., Professor of Clinical Medicine, University of Pennsylvania. 12mo volume of 200 pages. Cloth, \$0.00 net.

## MAIDENHOOD, MARRIAGE, MATERNITY, MENOPAUSE

In this instructive work are stated, in a modest, pleasing, and conclusive manner, those truths of which every woman should have a thorough knowledge. Written, as it is, for the laity, the subject is discussed in language readily grasped even by those most unfamiliar with medical subjects.

### Birmingham Medical Review, England

"We do not as a rule care for medical books written for the instruction of the public. But we must admit that the advice in Dr. Galbraith's work is in the main wise and wholesome."

---

# Pyle's Personal Hygiene

---

**A Manual of Personal Hygiene:** Proper Living upon a Physiologic Basis. By Eminent Specialists. Edited by WALTER L. PYLE, A. M., M. D., Assistant Surgeon to Wills Eye Hospital, Philadelphia. Octavo volume of 344 pages, fully illustrated. Cloth, \$1.50 net.

## PROPER LIVING UPON A PHYSIOLOGIC BASIS

The object of this manual is to set forth plainly the best means of developing and maintaining physical and mental vigor. It represents a thorough exposition of living upon a physiologic basis. There are chapters upon Hygiene of the Digestive Apparatus, Skin and its Appendages, Vocal and Respiratory Apparatus, Eye, Ear, Brain, and Nervous System, and a chapter upon Exercise.

### Boston Medical and Surgical Journal

"The work has been excellently done, there is no undue repetition, and the writers have succeeded unusually well in presenting facts of practical significance based on sound knowledge."

## Draper's Legal Medicine

**A Text-Book of Legal Medicine.** By FRANK WINTHROP DRAPER, A. M., M. D., Professor of Legal Medicine in Harvard University, Boston; Medical Examiner of the County of Suffolk, Massachusetts, etc. Handsome octavo volume of nearly 600 pages, fully illustrated. Cloth, \$0.00 net.

### A NEW WORK—PREPARING

The subject of Legal Medicine is one of great importance, especially to the general practitioner, for it is to him that calls to attend cases which may prove to be medicolegal in character most frequently come. The medicolegal field includes not only deaths of a homicidal nature, but also suits at law—the fatal railway accident, machinery casualties, and the like, to which the neighboring physician may be called, and later, perhaps, summoned to court. It is evident, therefore, that every practitioner should be thoroughly versed in all branches of medicolegal science. This volume, although prepared as a help to medical students, will be found no less valuable and instructive to practitioners. The author has not only cited illustrative cases from the standard treatises on forensic medicine, but these he has supplemented with details from his own exceptionally full experience—an experience gained during his service as Medical Examiner for the city of Boston for the past twenty-six years. During this time his investigations have comprised nearly seventy-seven thousand deaths under a suspicion of violence. It will be seen, therefore, that the work is authoritative, and, written by an experienced teacher, the language is clear and concise.

---

## Jakob and Fisher's Nervous System and its Diseases

**Atlas and Epitome of the Nervous System and Its Diseases.** By PROFESSOR DR. CHR. JAKOB, of Erlangen. *From the Second Revised German Edition.* Edited, with additions, by EDWARD D. FISHER, M. D., Professor of Diseases of the Nervous System, University and Bellevue Hospital Medical College, New York. With 83 plates and copious text. Cloth, \$3.50 net. *In Saunders' Hand-Atlas Series.*

The matter is divided into Anatomy, Pathology, and Description of Diseases of the Nervous System. The plates illustrate these divisions most completely; especially is this so in regard to pathology. The exact site and character of the lesion are portrayed in such a way that they cannot fail to impress themselves on the memory of the reader.

### Philadelphia Medical Journal

"We know of no one work of anything like equal size which covers this important and complicated field with the clearness and scientific fidelity of this hand-atlas."

---

# American Text-Book of Diseases of Children

---

**American Text-Book of Diseases of Children.** Edited by LOUIS STARR, M. D., Consulting Pediatricist to the Maternity Hospital, etc.; assisted by THOMPSON S. WESTCOTT, M. D., Attending Physician to the Dispensary for Diseases of Children, Hospital of the University of Pennsylvania. Handsome octavo, 1244 pages, profusely illustrated. Cloth, \$7.00 net; Sheep or Half Morocco, \$8.00 net.

## SECOND REVISED EDITION

To keep up with the rapid advances in the field of pediatrics, the whole subject-matter embraced in the first edition has been carefully revised, new articles added, some original papers amended, and a number entirely rewritten and brought up to date. The volume has thus been increased in size by a very considerable amount of fresh material.

### British Medical Journal

"May be recommended as a thoroughly trustworthy and satisfactory guide to the subject of the diseases of children."

---

# Gould and Pyle's Curiosities of Medicine

---

**Anomalies and Curiosities of Medicine.** By GEORGE M. GOULD, M. D., and WALTER L. PYLE, M. D. An encyclopedic collection of rare and extraordinary cases and of the most striking instances of abnormality in all branches of Medicine and Surgery, derived from an exhaustive research of medical literature from its origin to the present day, abstracted, classified, annotated, and indexed. Handsome octavo volume of 968 pages, 295 engravings, and 12 full-page plates. Popular Edition: Cloth, \$3.00 net; Sheep or Half Morocco, \$4.00 net.

As a complete and authoritative Book of Reference, this work will be of value not only to members of the medical profession, but to all persons interested in general scientific, sociologic, and medicolegal topics; in fact, the absence of any complete work upon the subject makes this volume one of the most important literary innovations of the day.

### New York Medical Journal

"We would gladly exchange a multitude of the relatively useless works which but encumber all branches of medicine, for one so comprehensive, so exhaustive, so able, and so remarkable in its field as this."

# Hofmann and Peterson's Legal Medicine

---

**Atlas of Legal Medicine.** By DR. E. VON HOFMANN, of Vienna, Edited by FREDERICK PETERSON, M. D., Chief of Clinic, Nervous Department, College of Physicians and Surgeons, New York.. With 120 colored figures on 56 plates and 193 half-tone illustrations. Cloth, \$3.50 net. *In Saunders' Hand-Atlas Series.*

By reason of the wealth of illustrations and the fidelity of the colored plates, the book supplements all the text-books on the subject. Moreover, it furnishes to every physician, student, and lawyer a veritable treasure-house of information.

**The Practitioner, London**

"The illustrations appear to be the best that have ever been published in connection with this department of medicine, and they cannot fail to be useful alike to the medical jurist and to the student of forensic medicine."

---

# Chapman's Medical Jurisprudence

---

**Medical Jurisprudence, Insanity, and Toxicology.** By HENRY C. CHAPMAN, M. D., Professor of Institutes of Medicine and Medical Jurisprudence in Jefferson Medical College, Philadelphia. Handsome 12mo of 329 pages, fully illustrated. Cloth, \$1.75 net.

**JUST ISSUED—THIRD REVISED EDITION, ENLARGED**

This work is based on the author's practical experience as coroner's physician of the city of Philadelphia for a period of six years. Dr. Chapman's book, therefore, is of unusual value.

This third edition has been thoroughly revised and greatly enlarged, so as to bring it absolutely in accord with the very latest advances in this important branch of medical science. There is no doubt it will meet with as great favor as the previous editions.

**Journal of the American Medical Association — In Reviewing the Second Edition**

"It is an excellent manual in which an accurate epitome is given of the existing knowledge on the subject."

---

## Davis' Obstetric and Gynecologic Nursing

---

**Obstetric and Gynecologic Nursing.** By EDWARD P. DAVIS, A. M., M. D., Professor of Obstetrics in the Jefferson Medical College and Philadelphia Polyclinic; Obstetrician and Gynecologist, Philadelphia Hospital. 12mo of 400 pages, illustrated. Buckram, \$1.75 net.

This volume is designed for the obstetric and gynecologic nurse. Obstetric nursing demands some knowledge of natural pregnancy and of the signs of accidents and diseases which may occur during pregnancy. It also requires knowledge and experience in the care of the patient and child. Gynecologic nursing is really a branch of surgical nursing, and as such requires special instruction and training. This volume presents this information in the most convenient form.

**The Lancet, London**

"Not only nurses, but even newly qualified medical men, would learn a great deal by a perusal of this book. It is written in a clear and pleasant style, and is a work we can recommend."

---

## Watson's Nursing

---

**A Handbook for Nurses.** By J. K. WATSON, M. D., Edin. Assistant House-Surgeon, Sheffield Royal Hospital. American Edition, under the supervision of A. A. STEVENS, A. M., M. D., Professor of Pathology, Women's Medical College, Philadelphia. 12mo, 413 pages, 73 illustrations. Cloth, \$1.50 net.

This work aims to supply in one volume that information which so many nurses at the present time are trying to extract from various medical works, and to present that information in a suitable form. Nurses must necessarily acquire a certain amount of medical knowledge, and the author of this book has aimed judiciously to cater to this need with the object of directing the nurses' pursuit of medical information in proper and legitimate channels.

**Journal of the American Medical Association**

"The intelligent nurse will find this a most convenient manual, and there are many things in it that the physician might find of use. In recommending text-books to nurses it could be put in the first rank."

## Golebiewski and Bailey's Accident Diseases

---

**Atlas and Epitome of Diseases Caused by Accidents.** By DR. ED. GOLEBIEWSKI, of Berlin. Edited, with additions, by PEARCE BAILEY, M. D., Attending Physician to the Almshouse and Incurable Hospitals, New York. With 71 colored illustrations on 40 plates, 143 text-illustrations, and 549 pages of text. Cloth, \$4.00 net. *In Saunders' Hand-Atlas Series.*

This work contains a full and scientific treatment of the subject of accident injury; the functional disability caused thereby; the medicolegal questions involved, and the amount of indemnity justified in given cases. The work is indispensable to every physician who sees cases of injury due to accidents, to advanced students, to surgeons, and, on account of its illustrations and statistical data, it is none the less useful to accident-insurance organizations.

**The Medical Record, New York**

"This volume is upon an important and only recently systematized subject, which is growing in extent all the time. The pictorial part of the book is very satisfactory."

---

## Stoney's Materia Medica for Nurses

---

**Practical Materia Medica for Nurses**, with an Appendix containing Poisons and their Antidotes, with Poison-Emergencies; Mineral Waters; Weights and Measures; Dose-List, and a Glossary of the Terms used in Materia Medica and Therapeutics. By EMILY A. M. STONEY, Superintendent of the Training School for Nurses at the Carney Hospital, South Boston, Mass. Handsome octavo volume of 306 pages. Cloth, \$1.50 net.

The present book differs from other similar works in several features, all of which are intended to render it more practical and generally useful. The consideration of the drugs includes their names, their sources and composition, their various preparations, physiologic actions, directions for handling and administering, and the symptoms and treatment of poisoning.

**Journal of the American Medical Association**

"So far as we can see, it contains everything that a nurse ought to know in regard to drugs. As a reference-book for nurses it will without question be very useful."

---

## Griffith's Care of the Baby

**The Care of the Baby.** By J. P. CROZER GRIFFITH, M. D., Clinical Professor of Diseases of Children, University of Penn.; Physician to the Children's Hospital, Phila. 12mo, 436 pp. Illustrated. Cloth, \$1.50 net.

**JUST ISSUED—THIRD EDITION, THOROUGHLY REVISED**

The author has endeavored to furnish a reliable guide for mothers. He has made his statements plain and easily understood, in the hope that the volume may be of service not only to mothers and nurses, but also to students and practitioners whose opportunities for observing children have been limited.

**New York Medical Journal**

"We are confident if this little work could find its way into the hands of every trained nurse and of every mother, infant mortality would be lessened by at least fifty per cent."

---

## Crothers' Morphinism

**Morphinism and Narcomania** from Opium, Cocain, Ether, Chloral, Chloroform, and other Narcotic Drugs; also the Etiology, Treatment, and Medicolegal Relations. By T. D. CROTHERS, M. D., Superintendent of Walnut Lodge Hospital, Hartford, Conn. Handsome 12mo of 351 pages. Cloth, \$2.00 net.

**The Lancet, London**

"An excellent account of the various causes, symptoms, and stages of morphinism, the discussion being throughout illuminated by an abundance of facts of clinical, psychological, and social interest."

---

## Abbott's Transmissible Diseases

**The Hygiene of Transmissible Diseases:** Their Causation, Modes of Dissemination, and Methods of Prevention. By A. C. ABBOTT, M. D., Professor of Hygiene and Bacteriology, University of Pennsylvania. Octavo, 351 pages, with numerous illustrations. Cloth, \$2.50 net.

**SECOND REVISED EDITION**

During the interval that has elapsed since the appearance of the first edition investigations upon the modes of dissemination of certain of the specific infections have been very active. The sections on Malaria, Yellow Fever, Plague, Filariasis, Dysentery, and Tuberculosis have been both revised and enlarged.

**The Lancet, London**

"We heartily commend the book as a concise and trustworthy guide in the subject with which it deals, and we sincerely congratulate Professor Abbott."

## Stoney's Nursing

---

**Practical Points in Nursing:** for Nurses in Private Practice. By EMILY A. M. STONEY, Superintendent of the Training School for Nurses at the Carney Hospital, South Boston, Mass. 466 pages, fully illustrated. Cloth, \$1.75 net.

**JUST ISSUED—THIRD EDITION, THOROUGHLY REVISED**

In this volume the author explains the entire range of *private* nursing as distinguished from *hospital* nursing, and the nurse is instructed how best to meet the various emergencies of medical and surgical cases when distant from medical or surgical aid or when thrown on her own resources. An especially valuable feature will be found in the directions how to *improvise* everything ordinarily needed in the sick-room.

**The Lancet, London**

"A very complete exposition of practical nursing in its various branches, including obstetric and gynecologic nursing. The instructions given are full of useful detail."

---

## Stoney's Bacteriology and Surgical Technic for Nurses

---

**Bacteriology and Surgical Technic for Nurses.** By EMILY A. M. STONEY, Superintendent of the Training School for Nurses at the Carney Hospital, South Boston, Mass. 12mo, 200 pages, profusely illustrated. Cloth, \$1.25 net.

The work is intended as a modern text-book on Surgical Nursing in both hospital and private practice. The first part of the book is devoted to Bacteriology and Antiseptics; the second part to Surgical Technic, Signs of Death, and Autopsies. The matter in the book is presented in a practical form, and will prove of value to all nurses who are called upon to attend surgical cases.

**Trained Nurse and Hospital Review**

"These subjects are treated most accurately and up to date, without the superfluous reading which is so often employed. . . . Nurses will find this book of the greatest value both during their hospital course and in private practice."
